

ENHANCE EVERY ENTRYWAY WITH CONFIDENCE

Waudena® Aluminum Storm Doors deliver airflow, natural light, and protection—without compromising style. Built with heavy-duty aluminum and arc-welded corners, they offer lasting durability and security. Narrow rails showcase the beauty of the Waudena entry door, while the powder-coated finish ensures long-term curb appeal with minimal upkeep.

HEAVY GAUGE ALUMINUM

The 1-1/4" thick, .062" heavy gauge aluminum is dent resistant and sturdy enough to provide years of beauty and performance.

WELDED CORNERS

The arc-welded corners provides the strongest aluminum storm door frame available in the market. The welded construction allows for narrow rails, providing 12% more light to your entryway.

HEAVY-DUTY PNEUMATIC CLOSERS

Closers with wind chains provide smooth, easy closing with a pull-close feature to ensure proper latching.

UNIQUE POCKET HINGE

The nested hinge provides strength where it's needed most. As the door frame carries the weight, the hinges are not pulled from the door during operation.

120 Series, 3/4 Lite self-storing storm door in Black.

100 Series, full view storm door, in Tan

TEMPERED SAFETY GLASS

Heat-tempered safety glass provides a clear weather shield that is three times stronger than regular glass.

FIBERGLASS SCREEN

A durable screen offers a clean, non-glare view and won't dent like an aluminum screen.

AVAILABLE SIZES

32" x 80"

36" x 80"

EASY INSTALLATION

Universal design allows doors to be installed as left or right outswing - easily determined at time of installation.
